ABSTRACT

Public Laws 81-815 and 81-874 were enacted in 1950 to assist school districts financially burdened as a result of certain federal activities. Under Public Law 81-874, payments for maintenance and operation of local schools are authorized when local revenues are reduced by the federal acquisition of real property, when the district provides education to children who reside on federal property, or when there is a sudden increase in school attendance due to federal activities. Under Public Law 81-815 federal financial assistance is authorized for school construction in districts having substantial enrollment increases due to federal activities. In 1965 both laws were amended to include federal disaster assistance to schools. The bulk of this report is made up of tables detailing the administration of both laws since 1951 with an emphasis on 1977. Tables for P.L. 81-874 show such data as applications submitted, appropriations, entitlements, payments, expenditures, number of children eligible for payment, and payments for transportation, custodial, and maintenance services. Tables for P.L. 81-815 show such figures as appropriations, per pupil construction costs, applications, projects approved, and numbers of classrooms provided. The last table shows federal funds reserved for disaster assistance for fiscal years 1966-77 and 1977. The data indicate substantial program growth since the laws were enacted. (Author/JM)

LETTER OF TRANSMITTAL

U.S. DEPARTMENT OF
HEALTH, EDUCATION, AND WELFARE

Office of Education
Washington, D.C. 20202

TO THE CONGRESS OF THE UNITED STATES

As Commissioner of Education I have the honor to submit herewith the twenty-seventh report concerning the administration of Title I of Public Law 81-874 and Public Law 81-815, as amended, including a detailed statement of receipts and disbursements, for the Fiscal Year which ended on September 30, 1977.

This report was prepared by the Division of School Assistance in Federally Affected Areas and is transmitted in accordance with the requirements of subsection 401(c) of Public Law 81-874 and subsection 12(c) of Public Law 81-815.

Respectfully yours,

A large, stylized handwritten signature in dark ink, appearing to read "Ernest L. Boyer". The signature is written over the typed name and title.

Ernest L. Boyer
U.S. Commissioner
of Education

Public Law 81-874

Table

1. Sections 2, 3, and 4: Net entitlements to and current expenditures of local education agencies, by State, county, congressional district, application number, and school district: Aggregate United States, final for fiscal year 1976 and estimated net payment for fiscal year 1977.....	48
2. Appropriations, net entitlements of local education agencies and Federal agencies under all sections of the act, by State: Aggregate United States, fiscal years 1951-77.....	246
3. Sections 2, 3, and 4: Eligible pupils in average daily attendance and net entitlements, by sections of the act, by State: Aggregate United States, fiscal year 1977.....	248

4. As amended: Congressional appropriations for school maintenance and operation, by public law number and date: fiscal years 1951-77.....	250
5. Title I, section 6: Average daily attendance and payments for current-expenditure purposes to Federal and local education agencies for free public education of children residing on Federal property, by application number and name of Federal installation and agency: Aggregate United States, fiscal year 1977 and final payments for fiscal year 1976.....	251
6. Title IV, section 402(a): Services and facilities provided by Federal agencies to local education agencies, by application number and military installation: Aggregate United States, estimated for fiscal year 1977, final for fiscal year 1976.....	252

Public Law 81-815

7. Sections 5, 8, 9, and 14: Federal funds reserved by sections of the act for local education agencies for construction of school facilities: fiscal years 1951-77.....	254
8. Federal funds reserved for local education agencies and Federal installations for construction of school facilities under all sections of the Act, by State and sections of the act: Aggregate United States, fiscal years 1951-77.....	336
9. Sections 5, 9, and 14: Eligible applications, eligible memberships, and Federal funds reserved, by State and by sections of the act: Aggregate United States, fiscal year 1977.....	338
10. Section 5: Estimated per-pupil cost of constructing minimum school facilities, by State: Aggregate United States, fiscal years 1973 and 1974.....	339
11. Congressional appropriations for school construction, by public law number and date: fiscal years 1951-77.....	340
12. Section 10: Number of projects, funds reserved, and pupils housed, by State and by Federal installation requesting construction of school facilities on Federal property: Aggregate United States, fiscal year 1951-77.....	341
13. Sections 5, 8, 9, and 14: Number of projects with fund reservations and number approved, classrooms provided, and pupils housed, by State: Aggregate United States, fiscal years 1951-77.....	346

14. Funds reserved and applications received under Public Law 81-815, section 16, and funds obligated and applications received under Public Law 81-874, section 7, for disaster assistance for local educational agencies by State: fiscal years 1966-77 and 1977.....

347

I. INTRODUCTION

Major Program Trends

When Public Laws 81-815 and 81-874 were enacted in 1950, the Congress initiated a Federal policy for assisting school districts financially burdened as a result of new or expanded Federal activities. At that time no one knew how long or on what scale the programs would be needed or what the initial or continuing costs would be. A review of the 27 years of operation shows a steady growth in the aid program authorized by Public Law 81-874; after the first 3 or 4 years, however, there was a leveling out and gradual tapering off for the school construction program authorized by Public Law 81-815.

Public Law 81-874

In the first year of operation, 1,172 school districts were eligible for maintenance and operation assistance on account of 512,000 federally connected children in average daily attendance at a total cost of \$29.6 million. These districts had a total average daily attendance of 2.9 million; their total current expenses were more than half a billion dollars; the average per pupil cost was \$176.76; and the average local contribution rate was \$106.82.

In every one of the 27 years since the program was inaugurated there has been an increase in each of these items of program activity. However, slightly fewer applications were received for fiscal years 1964-67 inclusive. The decrease reflected the many consolidations and reorganizations which had taken place rather than a reduction in the number of local education agencies eligible for assistance. From fiscal years 1968 through 1971 the number of applications increased each year, but in fiscal years 1972 through 1977 there were small decreases. (See chart 1.)

There was a slight increase from 4,301 eligible school districts in 1975 to 4,340 in 1977 with more than 23.5 million pupils in attendance, of whom about 2.4 million were federally connected. Total cost of the program was \$753 million, and total current operating expenses in these districts were \$33.5 billion. The average cost per pupil was \$1,423, and the average local contribution rate was \$745.

This continued substantial program growth is due to the increase in the number of school children (both federally connected and nonfederally connected), liberalization of the legislation, continued high Federal expenditures for national security and domestic development, and the ever increasing costs of education for both federally connected and nonfederally connected children, compounded by the effects of continuing inflation.

CHART 1.—Public Law 81-874, Title I: Number of Applications From Local Education Agencies: Fiscal Years 1951-1977

A large backlog of needed school construction had developed in federally affected areas prior to 1950 because only the most urgently needed school facilities were constructed in these areas during and immediately after World War II. Thus, the 1,128 applications filed and the more than 900 applications approved during the first 2 years of Public Law 81-815 operation (1950-52) were the largest numbers during any 2-year increase period.

The number of applications filed averaged between 700 and 800, and the number approved averaged nearly 500 for each 2-year increase period from 1952 through 1958. During the same interval, program requirements averaged \$81.8 million a year. There was a decrease in requirements after 1958, and for a number of years program costs remained relatively stable, ranging from \$60 million to \$50 million a year. Eligibility requirements were liberalized in 1966, and program requests are now about \$70-\$80 million a year. However, in FY 1977 the appropriation was \$25 million. Since FY 1967 appropriations have been insufficient to meet the demand for school construction assistance. As a result, there is presently a backlog of eligible, unfunded applications under sections 5, 10, and 14 which exceeds \$445 million.

Federal-State-Local Relations

Public Laws 81-874 and 81-815 authorize Federal payments directly to the eligible local education agencies. Applications for assistance under both laws are submitted to the Commissioner of Education through the State education agencies, which certify that the data contained therein are accurate insofar as records in State offices are concerned.

Each chief State school officer has designated one or more State representatives for the school assistance program to work with the local education agencies and with the regional program officers of the Office of Education in the administration of the program and in the development of applications for aid. Representatives of the Office are available to assist State education agencies and through them local education agencies. These representatives advise an applicant district on the maintenance of records with respect to the specific pupil and financial data required to support their claims.

Federal Property

The principal basis on which payments to local education agencies are authorized under the provisions of Public Law 81-815 and Title I of Public Law 81-874 is the existence of Federal property on which school children reside with their parents or on which their parents are employed in a school district or within the same State. With respect to Public Law 81-815, Federal properties in other States may also be considered as a basis for payments if they are located within reasonable commuting distance. Federal property, as defined by these laws, is: "... real property ... owned ... or ... leased by the United States ... not subject to taxation by any

State or any political subdivision of a State or by the District of Columbia"

Included in the definition is "... any interest in Federal property ... under an easement, lease, license, permit, or other arrangement, as well as any improvements of any nature (other than pipelines or utility lines) on such property even though such interests or improvements are subject to taxation by a State or political subdivision of a State or by the District of Columbia" For the purpose of Public Law 81-874 only, the term "Federal property" also includes "... for 1 year beyond the end of the fiscal year in which occurred the sale or transfer thereof by the United States, any property considered prior to such sale or transfer to be Federal property for the purposes of this Act...."

Beginning with the 1970-71 school year, the definition of Federal property in Public Law 81-874 was amended to include any low-rent housing (whether or not owned by the United States) which is part of a low-rent housing project assisted under the United States Housing Act of 1937, section 516 of the Housing Act of 1949, or part B of Title III of the Economic Opportunity Act of 1964. Public Law 81-815 was amended to include only the low-rent housing assisted under the United States Housing Act of 1937. However, the amendments authorizing eligibility of the low-rent housing also provided that funds appropriated for the impact aid program should not be paid on behalf of children residing therein and/or having parents employed thereon until other requirements of the acts were funded. The prohibition continued to apply to Public Law 81-815 in fiscal year 1976, but Public Law 93-380 authorized payments attributable to low-rent housing properties to be made in that year under Public Law 81-874 under certain conditions.

A local education agency's eligibility under most sections of the acts, therefore, is based on certain conditions of the real property on which school children reside or on which their parents are employed. It is necessary to determine whether the real property is owned, wholly or in part, by the Federal Government; whether it is leased by the Federal Government and not subject to taxation; for what purposes the property is used; and whether the Federal property was sold or transferred, wholly or in part, and the effective date of such sale or transfer.

Under some circumstances further qualifying determinations are required. When a Federal property and a private property are used jointly (commingled) and the employee's working time is divided between both portions, the percentage of time spent by the employees on each portion must be estimated.

According to the most recent report of the General Services Administration the Federal Government owns 22,530 different installations throughout the United States. School districts have claimed 8,781 owned or leased properties as well as low-rent housing projects as a basis for applications under Public Laws 81-874 and 81-815 during the 1976-77 school year.

Legislative Changes

Numerous amendments have been made to Public Laws 81-874 and 81-815

since their enactment. These changes have been described in some detail in the various annual reports of the U.S. Commissioner of Education for the fiscal years in which the amendments became effective. The most recent legislative changes are described in detail in the appropriate chapters of this text.

Civil Rights Act of 1964

All school districts eligible for Federal assistance under Title I of Public Law 81-874 in the 1976-77 school year were certified as being in compliance with Title VI of the Civil Rights Act of 1964.

Fair Employment Practices

During fiscal year 1977 applicants were required, as a condition for receipt of funds under Public Law 81-815, to give assurance that they would comply with the rules, regulations, and relevant orders of the President's Committee on Equal Employment Opportunity for all school construction projects approved for a grant of funds. This assurance was obtained as a part of the application for assistance.

Suitable Free Public Education

The eight projects constructed on eight military bases in 1963 in order to provide suitable free public education for on-base children were operated by the Federal Government under section 6 of Public Law 81-874 during fiscal year 1977. These projects, all for elementary school children, were constructed on: Fort McClellan, Fort Rucker and Maxwell Air Force Base in Alabama; Fort Stewart and Warner Robins Air Force Base in Georgia; England Air Force Base in Louisiana; and Fort Jackson and Myrtle Beach Air Force Base in South Carolina.

II. PUBLIC LAW 81-874 TITLES I AND IV

Providing Financial Assistance For Maintenance And Operation Of Schools In Federally Affected Areas

AUTHORIZING LEGISLATION

Authorization for the federally affected areas program under Public Law 81-874 is contained in sections 1 through 6 of Title I and sections 401 through 403, Title IV. Section 7 of Title I extends financial assistance to local education agencies affected by a major disaster. Section 7 and the program of disaster assistance are treated separately in this report.

Title I authorizes financial assistance for maintenance and operation of schools to local education agencies on which activities of the United States have placed a financial burden. It recognizes the following categories of burden for payment purposes:

1. Reduction in local revenues by reason of acquisition of real property by the United States (section 2).
2. Provision of education to children who reside on Federal property or reside with a parent employed on Federal property. A child of a parent on active duty in the uniformed services is considered as residing with a parent employed on Federal property in the State of the child's residence (section 3).
3. Sudden and substantial increases in school attendance as a direct result of activities of the United States carried on either directly or through a contractor (section 4).

This title provides also for transfer of operating funds to other Federal agencies when no local education agency is able to furnish free public education for children residing on Federal property (section 6).

Title IV authorizes reimbursement of Federal agencies supplying custodial, transportation, or maintenance services for children residing on Federal property (section 402).

An analysis of eligibility requirements and entitlement formulas by section follows under the heading Administration--Payment Provisions. Public Law 85-620, approved August 12, 1958, made permanent the provisions for payment for children who reside on Federal property with a parent employed on Federal property. Authorization for payment for all other categories of Federal impact has been extended from time to time. The latest extension, through fiscal year 1978, was made by Public Law 93-380 approved August 21, 1974.

ADMINISTRATION

The federally affected areas program under Public Law 81-874 is administered by the U.S. Commissioner of Education under authority vested in

him by section 401, Title IV. This section requires him to make an annual report to the Congress including a full account of the administration of his functions and a detailed statement of receipts and disbursements.

Section 432 of Public Law 91-230 states that Public Law 81-874 does not authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the personnel, curriculum, administration, or program of instruction of any educational institution, school, or school system, or to require the assignment or transportation of students or teachers to overcome racial imbalance.

Functions of the Commissioner

Public Law 81-874 places on the Commissioner discretionary powers and mandatory responsibilities. He may make such regulations and perform such functions as he finds necessary to carry out its provisions. He is required, however, to determine the eligibility and the rate of payment for each applicant. He must determine the entitlement of eligible applicants and pay from time to time the amount which, in his judgment, is due them. He is responsible for making arrangements to provide free public education for certain children residing on Federal property. If funds appropriated for payments for a fiscal year are insufficient to meet estimated requirements, he is obligated to prorate to claimants under sections 2, 3, and 4 those funds in excess of 100 percent and 25 percent of the amounts due as computed with reference to section 2 and 3, respectively.

The law requires the Commissioner to make judgements as to the degree of financial burden placed on local school districts; the reasonableness of local tax effort; the acceptability of "generally comparable districts"; and the suitability of free public education. Certain of his judgments may be made only after consultation with the State and local education agencies.^{1/}

Payment Provisions

Section 2, 3, and 4 concern payments to local education agencies. Section 6 and 402 pertain to transfer of funds to other Federal agencies.

Payments go directly to the school district. Estimated fiscal and pupil data in the application, form RSF-1, serve as the basis for an initial part-payment. Final data for the year submitted on form RSF-3 are the basis

^{1/} For purposes of Title I and IV, the term "State" means a State, Puerto Rico, Wake Island, Guam, the District of Columbia, American Samoa, or the Virgin Islands. The term "State education agency" means the officer or agency primarily responsible for the State supervision of public elementary and secondary schools. The term "local education agency" means a board of education or other legally constituted local school authority having administrative control and direction of free public education in a county, township, independent, or other school district located within a State. Such term includes any State agency which directly operates and maintains facilities for providing free public education.

for final payment subject to adjustment, if necessary, after a review is made of the applicant's pupil and fiscal records by the regional program officer. The percentages of payments on forms RSF-1 and RSF-3 are dependent on the amount of funds available at the time the payment is made.

Section 2, Reduction in Local Revenue by Reason of Acquisition of Real Property by the United States

A school district may be eligible if (1) the property was acquired by transfer and not by exchange since 1938; (2) the assessed valuation of such property represents 10 percent or more of the assessed valuation of all realty in the district at the time or times of transfer; and (3) the acquisition has imposed on the school district a substantial and continuing financial burden.

Maximum entitlement is the product of the applicant's current expense tax rate applied to the estimated assessed valuation of the Federal property (exclusive of improvements since transfer date).

In fiscal year 1977, 237 school districts claimed assistance under section 2. The Commissioner determined 231 to be eligible. (See table A). Net entitlements to local education agencies totaled \$9,807,997.

TABLE A.—Public Law 81-874, title I, sections 2, 3, and 4: Number of applicants eligible and ineligible, by subsections of the act: fiscal year 1977

Subsection	Number of applicants		
	Total	Eligible	Ineligible
Total applicants	4,472	4,340	132
3(c)(1)	4,472	4,340	132
3(d)(2)(B)	86	1	85
3(e)	46	6	40
4(a)	6		6
Section 2	237	231	6

Section 3, Education of Children Who Reside on Federal Property or Reside With a Parent Employed on Federal Property

Public Law 81-874 as amended by Public Law 93-380 establishes seven broad categories of school children for the purpose of computing the amount which a local educational agency is entitled to receive, and requires the Commissioner to determine the number in each. These categories include children who:

- (1) live on Federal property with a parent employed on Federal property all or some of which is in the same county as the applicant agency's (Section 3(a)(1)(A));
- (2) live on Federal property with a parent employed on Federal property that, if not in the applicant agency's county, is all or partly in its State (Section 3(a)(1)(B));

- (3) live on Federal property and have a parent on active duty in the uniformed services, or live on Indian lands (Section 3(a)(2));
- (4) live on Federal property (Section 3(b)(1));
- (5) live with a parent employed on Federal property all or some of which is in the county of the applicant agency (Section 3(b)(2)(A));
- (6) live with a parent on Federal property that, if not in the applicant agency's county, is in its State (Section 3(b)(2)(b)); or
- (7) have a parent on active duty in the uniformed services (Section 3(b)(3)).

In addition, these categories must be subdivided to permit identification of children residing on Indian lands, associated with low-rent public housing, and handicapped children of military personnel or residing on Indian lands.

A school district may be eligible if the number of section 3 children in average daily attendance (ADA) is 3 percent of the total average daily attendance or 400, whichever is the lesser, and at least 10. Average daily attendance is determined in accordance with State law and practice except that the Commissioner has the authority to specify the method to be used in determining the average daily attendance of federally connected pupils. By definition the term "average daily attendance" means the aggregate days of attendance in a given reporting period divided by the number of days school was actually in session.

Applicants which do not meet the percent requirement may be eligible for payment for 2 consecutive years following a year in which they met the requirement and were entitled to payment. The Commissioner may waive the 3-percent condition of eligibility when exceptional circumstances exist which would make the application of such conditions inequitable and defeat the purposes of the act. The Commissioner is not authorized to waive the number requirement of 10 or 400.

The law specifies how the amount to which an agency is entitled to be paid is to be computed. Basic to that process is the local contribution rate. To calculate it, a determination must be made as to school districts in a State that are like that of the applicant agency. The rate then is found by adding the expenditures from local sources made by the comparable districts two years before and dividing that sum by their average daily attendance in that same prior fiscal year. The rate must be at least as much as 50 percent of the average per pupil expenditure in the State, or in all States if the latter amount is the greater. However, the amount may not make the local contribution rate more than the average per pupil expenditure in the State. A State's average per pupil expenditure is the ratio of all the expenditures of all its local educational agencies of 2 years before to their total average daily attendance in that prior year.

The law permits the Commissioner to raise the local contribution rate

of an agency to compensate it for an increase in expenditures over those of other comparable districts due to the disadvantage of having unusual geographical factors.

The Commissioner must determine in an analagous manner the local contribution rates for the island territories and States with unorganized territory or only one educational agency.

Section 3(d)(1) of Public Law 81-874 as amended by Public Law 93-380 states how the amount of payment that a local educational agency is entitled to receive is to be determined. It establishes two categories of agencies. In the first are those in which the children who live on Federal property with a parent employed on Federal property, or who live on Federal property and have a parent on active duty in the uniformed services, or who live on Indian lands, have been found to number at least 25 percent of all the children in average daily attendance at an agency's schools. In the second category are agencies in which these children are less than 25 percent in number of those in average daily attendance, and agencies that have determined they have children in the other categories established by the law.

Section 3(d)(1) provides formulas for calculating the amounts of entitlements. The amount for the first type of agency, one with a high proportion of Federal children, is equal to the sum of four products. These are obtained by multiplying 100 percent of the local contribution rate by the number of children in the above specified three categories; 50 percent of the local contribution rate by the number of children with a parent on active duty in the uniformed services; 45 percent of the local contribution rate by the number of children who live on Federal property and the number who live with a parent employed on Federal property all or partly in the agency's county; and 40 percent of the local contribution rate by the number of children who live with a parent employed on Federal property all or some of which is in the agency's State. The entitlement of an agency in the second category is calculated by adding to the last three of the above products two other products. These are obtained by multiplying 100 percent of the local contribution rate by the number of children who live on Federal property and have a parent on active duty in the uniformed services, or who live on Indian lands, and by multiplying 90 percent of the local contribution rate by the number of children who live on Federal property with a parent employed on Federal property all or partly in either an agency's county or State.

Section 3(d)(2)(B) authorizes the Commissioner to increase the amount computed with the formulas enough to enable an agency to provide as good education as that in comparable school districts if:

that amount together with State, local, and other P.L. 81-874 funds is not enough to provide as good education as that in comparable school districts;

an agency is raising all the tax revenue it reasonably can and is trying to avail itself as diligently as possible of State and other financial assistance;

the number of counted children in the established categories is not less than 50 percent of the total in average daily attendance; and

an agency is as eligible for State aid for pupils living on Federal property and receives it on the same basis as other agencies.

However, the increased amount may not be more than the per pupil cost of education in the comparable districts multiplied by either number or both numbers of the counted pupils in two groups of the established categories. minus the amount of State aid available to benefit them. The first group includes the pupils who live on Federal property with a parent employed on Federal property or who live on Federal property, including Indian lands, and have a parent on active duty in a uniformed service. In the second group are the pupils who live on Federal property. There was a net entitlement under this section in fiscal year 1977 of \$2,079,499.

Section 3(d)(2)(C) authorizes entitlements based on children with parents in the uniformed services and also with handicaps or specific learning disabilities to be increased by 50 percent. Furthermore, such children must be enrolled in a school program to meet their special educational needs. The Commissioner must issue regulations to establish criteria for such programs, including preschool programs, and assure that they are adequate to the needs of those handicapped and disabled pupils, and must consult with State special education personnel in carrying out the regulations. Proposed rules in this area were published in the Federal Register on December 5, 1975 (40 FR 57042-57058).

For fiscal year 1977, applications for assistance under subsections 3(a) and 3(b) numbered 4,471. The Commissioner determined that 4,340 applicants were eligible (see table A). Net prorated entitlements totaled \$620,912,265 for 364,700 subsection 3(a) pupils and for 2,082,004 subsection 3(b) pupils in ADA.

Section 3(e) sets the amount to which any agency is entitled for any fiscal year, and the three succeeding ones, at not less than 90 percent of that which was due it in the preceding year, whenever:

the number of counted children in the categories is less than 90 percent of that number in the preceding year, and

Federal activities have so declined or ceased in the State that the number of the counted children is substantially fewer.

In such a case, the amount of entitlement in addition to that which would otherwise be owing to an agency is to be computed in the same way as that of children found to be living with a parent who works on Federal property at least partly in the same county as the school district. Of the 46 applicants who claimed assistance under section 3(e) in fiscal year 1977 (see table A), the Commissioner determined that 6 were eligible for a total entitlement of \$140,285.

Section 3(f) says the numbers of children in the various categories are

to be estimated if they cannot be actually counted. No estimate found later to have been too low may be used to deprive an agency of the full amount due it.

Among the changes made by the Education Amendments of 1974 in Public Law 81-874 was the addition of four provisions called the savings or hold-harmless clauses. These are set forth in section 305(b). Two of them became effective in fiscal year 1975 and two in 1976. The first hold harmless provision pertains to two classifications of local educational agencies, those entitled to a payment for fiscal year 1973 equal to not less than 10 percent of its current expenditures and, in the second class, any other agencies. Agencies in the first group are entitled to payments for fiscal years 1975 through 1978 equal in amount to not less than 90 percent of the payment of the prior fiscal year. The other agencies may not be paid less than 80 percent of the preceding year's payment.

The second hold harmless provision states that the entitlement of any agency whose number of children counted under section 3 declined 10 percent in fiscal years 1974 and/or 1975 may be 90 percent of the entitlement of the preceding fiscal year in cases due to a decrease or cessation announced after April 16, 1973, of Federal activities.

The third hold harmless provision requires the Commissioner to determine in fiscal years 1976 and 1977 the number of children who live with a parent employed on Federal property in another State or county than of the applicant school district, but within reasonable commuting distance of it. If those children equal at least 10 percent of the children who live on Federal property or with a parent who works on Federal property in the same county or State as the district, or had a parent on active duty in the uniformed services, the amount to which the agency is entitled with respect to that category of children may not be less than 90 percent of its same type of payment in the previous fiscal year.

The fourth hold harmless clause declares that the Commissioner in fiscal years 1976 through 1978 must determine the amount each applicant agency would be paid if the appropriated funds were allocated to them according to the prescribed procedures in the event the appropriated sums are insufficient to pay in full all amounts due, both with and without regard to children who live on, or with a parent employed in, a low-rent public housing project. If the amount without considering those children is greater than the amount with taking them into account, the Commissioner must pay to the applicant agency an amount equal to the difference.

Section 4(a), Sudden and Substantial Increases in the Number of Pupils in ADA as a Direct Result of Activities of the United States Carried on Directly or Through a Contractor

An agency may be entitled under section 4(a) to receive an amount to be calculated if: activities of the United States or a contractor of it cause an increase in average daily attendance that is at least 5 percent of the difference between the number of children in average daily attendance the previous year and the number (including children who lived on or lived with

a parent employed on Federal property) whose attendance during that prior year was due to activities of the United States; its additional cost due to those activities is substantial and continuing; and the agency is doing all it reasonably can with respect to the levying of taxes, and is trying to seek State and other funds but has been unable to get enough to pay for the additional costs.

The amount to which an agency eligible to receive this payment is entitled is equal to this product:

the number of children in the increase that is due to the activities of the United States, multiplied by

the amount of the agency's expenditure on each of the additional children, less

the amount of funds available for this purpose from Federal, State, and local sources other than payments under this law and local funds necessary to include other children.

Six agencies claimed this type of assistance in fiscal year 1977, all of which were found to be ineligible.

For the next fiscal year after this increase in children, an agency may be entitled to receive 50 percent of this product reduced by the amount of it attributable to children in the established categories for whom the agency is entitled to receive payment. The agency may not receive more money, however, than the amount necessary together with State, local and other Federal funds, exclusive of those available under the Elementary and Secondary Education Act, to provide education as good as that offered by generally comparable agencies in the State.

The law requires the Commissioner to determine on the basis of estimates made before the end of the fiscal year whether there has been an increase due to activities of the United States that meets the 5 percent requirement. However, no underestimate by the Commissioner may cause an agency to be deprived of its due entitlement to payment.

With respect to the amount of an agency's expenditure on each of its additional children whose attendance is due to activities of the United States, in computing the amount of payment an agency may be entitled to receive the Commissioner must consider the expenditure per child in generally comparable school districts in the State.

Counting of Certain Children

In determining an increase in attendance, if any, due to activities of the United States and in determining the number of children with respect to whom a payment may be made, section 4(c) prohibits counting the children found to be in the established categories with respect to whom an agency would otherwise be entitled to receive payment, unless the agency chooses

to include an increase in the number of children who live on Federal property or who live with a parent employed on Federal property instead of computing the amount of payment with respect to them by the formulas as otherwise provided. Also excluded from being counted are the children whose attendance is due to activities of the United States on property of the Post Office Department used primarily for postal services.

Adjustment for Certain Decreases in Federal Activities

The amount to which an agency may be entitled with respect to an increase in the number of children due to activities of the United States may be increased under section 4(d) if:

the increase in the number of children is substantially less than expected because Federal activities have declined, ceased, or failed to occur, and the agency has made reasonable preparation to serve more of them.

The law limits the amount of increase in the amount of entitlement of an agency due to activities of the United States to that to which the Commissioner deems the agency would have been entitled but for the decline, cessation, or nonoccurrence of the activities, less the amount of any economies the agency may or should have effected because the anticipated increase in Federal activities failed to materialize.

The Commissioner under the law has to consult with the State and local educational agency in making all determinations with regard to increases in numbers of children due to Federal activities.

There were three section 4(d) applications in 1977, and all were determined to be ineligible.

Applications

An agency that wants to receive funds under the law must apply to the Commissioner through its State educational agency in whatever way the Commissioner requires. Applications submitted with respect to children who live on, or live with a parent employed on, Federal property defined by the law as Indian lands must assure that Indian children will participate equitably in the school program.

Payments

Section 5(c) tells how the Commissioner must allocate funds among, and make payments to, agencies when appropriations are less than estimated entitlements for sections 2, 3, and 4. These funds are allocated in three stages:

First, the Commissioner must pay each agency so entitled 100 percent of the amount due it as computed with reference to section 2 (the Federal acquisition of property) and 25 percent of the amount due as computed with

reference to section 3 (children of parents having Federal residence or employment).

Second, if any funds remain after the first allocation, they are distributed in various percentages to different subcategories of section 3 entitlements. An agency in which the children who live on Federal property with a parent employed on Federal property, or who live on Federal property and have a parent on active duty in the uniformed services, or who live on Indian lands number at least 25 percent of those in average daily attendance receives 75 percent of its entitlement. Other categories of children and the percentage of entitlement each agency is to be paid from these remaining funds are the children who:

live on Federal property and have a parent on active duty in the uniformed services, or live on Indian lands, 65 percent;

live on Federal property and have a parent employed on Federal property, 63 percent;

have a parent on active duty in the uniformed services, 35 percent;

live on Federal property, or live with a parent employed on Federal property all or partly in the agency's county, 32 percent; or

live with a parent employed on Federal property that, if not in the agency's county, is in its State, 28 percent.

No allocations or payments may be made under this second procedure to an agency in any of the categories unless all of them are allotted and paid the specified proportion of their entitlement.

If any funds are still left over, the Commissioner must make a third allocation among agencies with unsatisfied entitlements under section 3 (children of parents living or employed on Federal property), and section 4 (sudden and substantial increases in attendance). This third allocation is to be made in proportion to the degree to which an agency's entitlement remains unmet after the first and second distributions. For example, if an agency first is paid 25 percent and then an additional 65 percent, a third payment of 10 percent is due it to comprise 100 percent of its entitlement.

The law as amended requires the Commissioner to find out how many of the children determined to be in the established categories with respect to the residence or employment of their parents on Federal property live on, or with a parent employed on, the property of low-rent public housing units. The law prohibits any allocation or payment of funds under the second allocation when appropriations are insufficient, with respect to that part of an agency's entitlement attributed to residence or employment on low-rent public housing property.

Payments and State Aid

Section 5(d) prohibits the making of any payments in a State that takes

into consideration payments under this program in determining either the eligibility of any local educational agency for State aid or the amount of that aid in the present or prior fiscal year, or in a State that reduces the amount of its aid to an agency because the agency is eligible for Federal assistance under this program.

However, payments under this program may be taken into consideration by a State with a program of State aid designed to equalize expenditures by local educational agencies, so that the State may better determine the financial resources available to, and the financial need of, its local agencies, but the State may consider as local resources receipts under this Federal program only in the proportion that local revenues included under its equalization plan bear to total local revenues.

The terms "State aid" and "equalize expenditures" are to be defined by regulation. This in effect has required the Commissioner to promulgate standards for State-aid programs involved. Interim regulations were published in the Federal Register June 25, 1976 (41 FR 26320-26331). Section 330(a) of Public Law 94-482 amended these provisions to provide that the Commissioner may not withhold payments from local educational agencies in a State which fails to conform to these standards before July 1, 1977, or the promulgation of final regulations, whichever is later.

Section 5(e) requires the Commissioner to determine how much of each agency's entitlement to payment is due to children who live on, or with a parent employed on, the property of low-rent public housing project as defined in the law. The particular allocation of these funds under section 5(c) has been discussed.

The amount of any payment made on behalf of these children in low-rent public housing must be used for special programs and projects to serve educationally deprived children from low-income families.

The amount of payment with respect to those children found to be handicapped or subject to specific learning disabilities and to have a parent on active duty in a uniformed service, and on account of whom the amount was increased by 150 percent, must be spent to provide special educational programs for them.

The Commissioner under section 411(c)(2) of Public Law 92-318 must encourage parents to participate in this program of Federal assistance with respect to children who live on, or live with a parent employed on, Indian lands, as included in the legal definition of Federal property. Standards for parental participation are set out in regulations at 45 CFR 115.14.

Section 6 requires the Commissioner to make arrangements, exclusive of the acquisition of land, erection of facilities, interest or debt service, to provide instruction for children who live on Federal property, if:

no tax revenues of the State or any political subdivision of it may be spent to educate them; or

the Commissioner finds no local educational agency can offer them suitable education.

Such arrangements may also be made for children of members of the armed forces on active duty, if:

the State or local government makes its schools no longer available to these children and the Commissioner finds no local agency can provide suitable education for them.

The local educational agency or head of the Federal department or agency that provides the education as arranged must see to it that the instruction given is as good as that in comparable communities in the State or, in the case of education provided outside the continental States and Hawaii, in the District of Columbia. The law permits for the purpose of providing the comparable education the hiring of personnel without regard to various specified legislation.

When the Commissioner has arranged that education be provided on Federal property, it may also be provided in those facilities for children who live next to the property with a parent who is or was during the year employed on the property. Where this provision is judged not to be temporary, the State or the local educational agency is obliged to make reasonable tuition payments either directly or through deductions from amounts due the local agency under this program. In Puerto Rico, Wake Island, Guam, American Samoa, or the Virgin Islands, the eligible children include those with a parent employed by the United States.

The Commissioner may make these arrangements only with a local educational agency or with the head of the Federal agency having authority over the property on which the children live, or the head of the military department having authority over the parents in the armed forces of some or all of the children. Generally, the arranged education may be provided only in facilities of a local educational agency or on Federal property.

The standard for the total payments that the law authorizes the Commissioner to make in arranging for educating children in the continental States, Alaska, and Hawaii is the amount per pupil necessary to provide education in comparable communities in the States. For those outside the continental United States, Alaska, and Hawaii, the standard for payment is the amount per pupil necessary to provide education like that in the District of Columbia.

If a State or political subdivision may not spend tax revenues on educating children who live on Federal property, or if a State allocates no money for that purpose, then the property on which the children live is not to be considered as Federal property under the program. If a local agency refuses to provide education for children resident on Federal property in its district, a deduction is to be made from any amount to which it is entitled by having children in attendance in the various categories or by experiencing a sudden and substantial increase in attendance because of Federal activities. The deduction is to equal the amount by which the cost to the Commissioner to provide

education for each of the children exceeds the agency's local contribution rate, multiplied by the number of children.

In fiscal year 1977, the Commissioner made section 6 arrangements in 23 instances at a total cost of \$52,455,720 for 49,833 pupils in average daily attendance.

Section 402(a), Transfer of Funds to Federal Agencies for Services Which They Provide

Federal agencies may provide custodial, transportation, or maintenance services for children residing on Federal property and attending a school district which, because of State law or other factors, is unable to reimburse the Federal agency. In such instances the Commissioner may

authorize transfer of funds to the Federal agencies to cover the costs of services provided. The maximum amount transferred, limited by the amount approved by the Commissioner, is the actual cost of such services for the year. When section 402(a) is involved, the local education agency's entitlement under section 3 is paid in two parts. The first part is in the form of a cash payment to the local education agency itself. The second part is in the form of a payment made on behalf of the local education agency to the Federal agency providing the services. In fiscal year 1977 the Commissioner made one such transfer at Department level for a total of \$44,280.

RECEIPTS AND DISBURSEMENTS

A general summation relating program activity to funds appropriated and expended follows:

Appropriations

For fiscal year 1977, Congress appropriated \$768 million for payments for the maintenance and operation of schools, as authorized by Public Law 81-874.

Section 5(c) of Public Law 81-874 provides for proration of payments to all applicants under section 2, 3, and 4 when appropriations are insufficient to pay the full amount of entitlements of all applicants for a fiscal year, subject to the specific language of the act. Sections 6, 7, and 402(a) are exempt from the proration, subject to the specific language of the act. It has been determined that the amount appropriated will fund all claims under sections 2, 3 (except as noted in table B), and 4 of the act at 100 percent.

Net Entitlements

As of June 30, 1977, the Commissioner estimated total entitlements from 1977 appropriations to be \$760.7 million. Transfers of funds under section 6 and 402 account for \$52.5 million of this amount. The remainder represents entitlements estimated for local education agencies which claimed assistance

under sections 2, 3, 4, and 7 and the hold-harmless clauses (see table B).

TABLE B.—Public Law 81-874, titles I and IV: Number of eligible claimants, average daily attendance, and estimated net entitlement by title, section, and basis of eligibility, all sections: fiscal year 1977

Title, section, and basis of eligibility		Eligible claimants	Average daily attendance	Total net entitlement	Percent of total net entitlement
GRAND TOTAL		4,340	—	\$760,702,360	100.00

PROGRAM TRENDS

Since the inception of the federally affected areas program under Public Law 81-874 in 1951, net entitlements have shown a steady growth from \$29.6 million to \$557 million in fiscal year 1970. However, in fiscal year 1971 net entitlements dropped to \$486 million. This was due to a decrease in the number of federally connected pupils and in the number of eligible applications. In fiscal year 1972 net entitlements began to increase although the number of eligible applicants and federally connected pupils continued to decrease. This stems from an increase in the local contribution rate. In fiscal year 1977, \$703.2 million represented entitlements paid to sections 2, 3, and 4 and the hold-harmless clauses of Public Law 81-874 (not including \$52.4 million under sections 6 and 402(a) and \$5 million for disaster relief under section 7) (see table B). The federally connected ADA of half a million in the first year has increased more than fivefold, reaching 2.7 million in 1968 but declining to about 2.4 million in 1977. The average local contribution rate of \$745 is 7 times the rate of \$107 in 1951.

Public Law 83-248 broadened the definition of Federal property and extended the 3(a) category to include children of parents in the uniformed services; Public Law 84-949 again expanded the definition of Federal property and extended the 3(b) category to include children of members of the Armed

Forces (now "uniformed services"); Public Law 85-620 changed the definition of "child" to include Indian children; Public Law 85-313 standardized the 3-percent eligibility requirement for all school districts; Public Law 89-750 introduced the alternative minimum of 400 for section 3 ADA, broadened further the definition of Federal property, extended coverage to additional federally connected children, and revised the basis for deducting "other Federal payments" from gross entitlements; Public Law 90-247 repealed the deduction provision; and Public Law 91-230 extended the 3(b) category to include children residing with a parent who under certain circumstances was a refugee at any time during the 3 prior years if the average daily attendance in a local school district attributable to such children amounts to 20 percent or more of the average daily attendance of all children during the year.

Public Law 91-230 also broadened the definition of Federal property to include "any low-rent housing ... which is part of a low-rent housing project assisted under the United States Housing Act of 1937, section 516 of the Housing Act of 1949, or part B of Title III of the Economic Opportunity Act of 1964." In fiscal year 1974 applicant districts could include children residing in this housing together with other eligible federally connected children to meet the minimum eligibility requirements of the act. However, the shortage of funds prevented their being paid on account of the children residing in eligible low-rent housing.

Other amendments have had the effect of substantially increasing the average local contribution rate of payment per pupil under section 3. Chief among these amendments were Public Law 83-248, establishing as the minimum rate of payment one-half the State average per-pupil cost in the second preceding year, and Public Law 85-620, which set as a second minimum rate of one-half the national average per-pupil cost of the same year.

Public Law 93-380 made these amendments to the act: (1) the guarantee of 100 percent payment for heavily impacted school districts (those with 25 percent or more "A" children), (2) the provision that Indian lands transferred to public housing authorities remain eligible Federal property, and (3) the four hold-harmless clauses set forth in section 305(b)(2)(A), (B), (C), and (D), which previously have been described.

As shown in table C, the proportion of total operating expenses of eligible school districts represented by these Federal payments has ranged from 5.69 in fiscal year 1951 to 1.88 percent in 1977 for a 27-year average of 4.17 percent. The major portion of total entitlements has repeatedly been paid to section 3 applicants, standing at 78.9 percent at the start of the program and at 81.87 percent in 1977 (see table B). The proportion of federally connected ADA to total ADA in eligible districts dropped from 14.91 in 1951 to 10.37 percent in 1977 for an overall average of 12.97 percent, as shown in table C. The average local contribution rate was 52.32 percent of the average per-pupil cost in eligible districts in fiscal year 1977, compared with 60 percent in 1951. The increasing gap between the per-pupil cost and the local contribution rate is due to increasing costs of education and decreases in the amount of local funds needed to meet

TABLE C.—Public Law 81-874, title I, section 2, 3, and 4: Number of eligible applicants, net entitlement, total current expenditures, percent financed by Public Law 81-874, number of pupils in districts, and number and percent federally connected, by sections of the act: fiscal years 1951-77

^a Prorated, inasmuch as appropriation was insufficient to pay all claims at 100 percent of entitlement.

education costs. This is the reason for increases in the local contribution rate. The relationship between the two figures over the years of the program is shown graphically in chart 2.

CHART 2.—Public Law 81-874, Title I: Average Per-Pupil Cost and Local Contribution Rate (in Dollars): Fiscal Years 1951-1977

In fiscal year 1951, 2.9 million pupils were in attendance in eligible school districts. This total approximated one-eighth of the Nation's public school attendance in that year. The 23.6 million pupils in attendance in school districts eligible for payment in fiscal year 1977 (including junior college attendance for California only) represented about 58 percent of the Nation's public school attendance.

In fiscal year 1977, Federal payments helped to support educational services for over 4.5 times as large a percentage of public elementary and secondary school ADA as in 1951.

TABLE D.—Public Law 81-874, Title I, Section 2, 3, and 4: Estimated national totals, by sections, of number of applications, average daily attendance, entitlement, and prorated entitlement: fiscal year 1977

III. PUBLIC LAW 81-815

Providing Financial Assistance For School Construction In Federally Affected Areas

PURPOSE

Public Law 81-815 authorizes Federal financial assistance for constructing urgently needed minimum school facilities in school districts having substantial membership increases due to new or increased Federal activities. Assistance is also authorized for the construction of school facilities: by local education agencies for inadequately housed pupils when Federal property constitutes a substantial portion of the school district; by local education agencies for pupils residing on Indian lands; and by the Federal Government on Federal property when no State or local education agency may legally do so. Major disaster assistance is available to public school districts for replacing or restoring public school facilities destroyed or seriously damaged as a result of a major disaster or for constructing additional public school facilities to house children who attended a private school seriously damaged or destroyed in a major disaster and which is not to be rebuilt or repaired.

The act prescribes specific criteria necessary to determine eligibility under the various sections and subsections and contains provisions to determine the amount of Federal assistance that may be approved. Congress has amended Public Law 81-815 several times since its original enactment. Certain provisions pertaining to children who reside on Federal property with a parent employed on Federal property were made permanent by Public Law 85-620. The provisions of section 14 which formerly concerned primarily children residing on Indian reservations were made permanent by Public Law 89-750. Public Law 90-247 made the provisions of subsections 14(a) and (b) applicable exclusively to local education agencies serving children residing on Indian lands or to local education agencies where Indian lands constitute a substantial part of the district. Subsection 14(c), which assists financially distressed school districts where Federal lands comprise a substantial part of the area, was added by Public Law 91-230. Other categories of Federal impact covered by subsection 5(a)(2) and 5(a)(3) have been extended periodically since 1958. The provisions for all categories of children included in the act were in effect during fiscal year 1977.

Public Law 81-815 authorizes grants to local education agencies under sections 5 and 9 based on increases in federally connected membership during a 4 year increase period except that grants under section 9 are authorized only if the increase is expected to be temporary. Subsections 14(a) and 14(b) authorize grants to local education agencies on the basis of children residing on Indian lands and for whom the responsible local education agency is unable to provide minimum school facilities. Subsection 14(c) authorizes grants if a substantial portion of a school district is Federal land and a substantial percentage of its pupils lack minimum school facilities.

GRANTS BASED ON INCREASES IN FEDERALLY CONNECTED MEMBERSHIP (Sections 5 and 9)

Estimating Increases in Membership

Each application under sections 5 and 9 is a request for assistance in constructing school facilities. Applications may be filed in the third or fourth year of any increase period; i.e., the period of four consecutive regular school years during which the increase in membership on which the application is based occurs. The Commissioner is required to estimate the increase in federally connected membership as of the end of that increase period. Total membership may be estimated for 2 years beyond the 4-year increase period in determining unhoused children. This feature encourages more effective advance planning for school construction.

The increase period and the base year, that is, the year preceding the 4-year increase period, advance 1 year each July 1. For example, the 1977 year covered by this report is the fourth year of the 4-year increase period of July 1, 1973 to June 30, 1977, and the third year of the 4-year increase period of July 1, 1974 to June 30, 1978.

Eligibility Requirements Under Section 5

Three categories of federally connected children form the basis for eligibility under section 5 of Public Law 81-815. The first two categories represent the relationship of children to Federal property. Children classified under subsection 5(a)(1) reside on Federal property. Children classified under subsection 5(a)(2) reside with a parent employed on Federal property, or have a parent on active duty in the uniformed services.

The Federal property involved must be located in the same State as the applicant school district or within reasonable commuting distance if located in another State.

To be eligible under either subsection 5(a)(1) or 5(a)(2) a school district must have an increase in pupil membership countable in one or both categories of at least 20 children during a 4-year increase period, and that increase must equal at least 6 percent of the district's total average daily membership¹ for the base year, or 1,500 pupils, whichever figure is the lesser. The base year is the school year immediately preceding the first year of a 4-year increase period.

The third category of federally connected children defined in subsection 5(a) includes those whose attendance in an applicant school district is due to activities of the United States carried on directly or through a contractor. Eligibility for payment under subsection 5(a)(3) requires that the school

¹/Average daily membership is determined under State law and practice. By definition, the term means the aggregate number of days of membership of all children in the school district divided by the number of days school was in session. Only days on which pupils were under the guidance and direction of teachers in the teaching process may be considered days in session.

district's estimated membership increase during the 4-year increase period must be at least 20 in number and at least 10 percent of the total base-year average daily membership, or 2,500 pupils, whichever figure is the lesser. It must also be established that constructing minimum school facilities for that number of children would impose an undue burden on the taxing and borrowing power of the district.

Number of Children Counted for Payment

School districts are required under subsections 5(a)(1) and 5(a)(2) to absorb an increase of 6 percent, or 1,500 in number, whichever is the lesser in non-Federal membership during any 4-year increase period. Under subsection 5(a)(3) the absorption requirement is 6 percent, or 2,500 in number, whichever is lesser. Should an applicant fail to meet the applicable absorption requirement, the number of pupils by which it fails to meet it is deducted from the number of qualifying federally connected pupils in determining the number of pupils counted for payment. Payment is also limited to the number of eligible federally connected pupils in excess of the estimated federally connected membership as of the end of an increase period covered by a prior eligible application, or to the number of such pupils previously counted for payment, whichever is the greater.

Amount of Federal Payment

The maximum allowable grant under section 5 is the product of the federally connected children counted for payment under subsection 5(a)(1), 5(a)(2) and 5(a)(3) times 95, 50, and 45 percent, respectively, of the average per pupil cost of constructing school facilities in the applicant's State in the second year of the 4-year increase period involved. The grant is further limited to the actual cost of constructing minimum school facilities for children who would otherwise be without such facilities.

Additional Payments Under Section 8

Up to 10 percent of the appropriation for any fiscal year may be used for additional payments authorized under section 8 of Public Law 81-815. If an otherwise eligible application cannot be approved under this law because the local education agency cannot finance the non-Federal share of the cost of the proposed school facilities, the Commissioner may make a grant, in addition to payments otherwise provided under the act, in an amount not to exceed the cost of providing minimum school facilities for the number of unhoused children as of the end of the increase period, less all financial resources practicably available to the applicant. The grant will not exceed the difference between (1) the actual cost of providing minimum school facilities for the federally connected pupils eligible for payment under the act, or the average cost in the State of providing such facilities, whichever is the lesser, and (2) the Federal funds made available to the applicant under section 5 of the act, plus local and State funds which may be made available for this purpose.

An additional grant may also be authorized under section 8 to complete an approved project which could not otherwise be completed because of flood,

fire, or similar emergency affecting either the work on the project or the applicant's ability to finance the non-Federal share of the cost of the project. A grant for such purpose may not exceed the amount required to pay the additional cost caused by the emergency, less any financial resources available to the applicant, including any insurance proceeds or interest earned on the investment of such insurance proceeds.

Assurances Required

Before Federal funds may be allotted for constructing school facilities, the Commissioner must be assured that the applicant has or will have title to the site or the right to construct and operate the proposed school facilities on the site. The Commissioner must also be assured that the completed school facilities will be maintained by the applicant for at least 20 years. The applicant must also have legal authority to construct the project and to finance any non-federal share of the cost as proposed. Assurances must also be given that the project will commence within a reasonable time and be completed with due diligence. The rates of pay for construction workers on the project may not be less than wage rates determined under the Davis-Bacon Act. The local education agency must also assure that its school facilities will be available to children for whose education contributions are provided in the act on the same terms in accordance with State law as they are to other children in the district. The local education agency must also agree to provide the Commissioner any further information relating to the project which he may reasonably require.

Other assurances are required respecting Title VI of the Civil Rights Act of 1964; and consideration must be given to excellence of architecture and design and to accessibility and usability of the facilities by handicapped persons.

Providing Facilities Under Section 9 for Local Education Agencies Affected by Temporary Federal Impact

Increases in school membership may be temporary, and the applicant may request that funds be allotted to it under section 9 in an amount equal to what is needed to construct temporary school facilities. Such funds may be used to construct permanent school facilities, in lieu of temporary facilities, but under such a circumstance assurance must be given that adequate school facilities will be provided for federally connected children whose membership is considered to be temporary and who form the basis for payment under the act. Alternatively, the applicant may request that needed temporary school facilities be made available by the Commissioner of Education.

GRANTS TO PROVIDE NEEDED MINIMUM SCHOOL FACILITIES FOR CHILDREN RESIDING ON INDIAN LANDS AND FOR INADEQUATELY HOUSED CHILDREN (Section 14)

Subsections 14(a) and 14(b) authorize grants to construct minimum school facilities in school districts which provide or, when facilities are available, will provide free public education for children who reside on Indian lands, or in school districts where Indian lands constitute a substantial part of the school district.

Eligibility Requirements

An applicant school district may be eligible for payment under subsection 14(a) or 14(b) if:

(1) The number of pupils residing on Indian lands for whom the applicant provides free public education represents a "substantial percentage" of the total number of children for whom the local education agency provides free public education. An applicant will be considered as meeting the "substantial percentage" requirement if the estimated number of children who reside on Indian lands as of the close of a 4-year increase period, and whose membership has not formed or will not form the basis for payment under other provisions of the act, is at least 15 and, under subsection 14(a)(1), is at least 33 1/3 percent or under subsection 14(b)(1), at least 10 percent of the total number of children for whom the applicant is providing free public education;

or

(2) the Indian lands in the school district comprise a "substantial part" of the school district. An applicant will be considered as meeting this requirement if the Indian lands in the school district represent, in relation to subsection 14(a)(1) of the act, at least 33 1/3 percent, and in relation to subsection 14(b)(1) of the act, at least 10 percent, of the total and area in the school district;

or

(3) the applicant is providing free public education for at least 100 children who reside on Indian lands located outside the applicant school district;

and

(4) the immunity of such Indian lands from taxation by the applicant has created a substantial and continuing impairment of its ability to finance needed school facilities. (This provision may be waived if the applicant is providing free public education for 100 or more children who reside on Indian lands located outside its school district.)

Under section 14(a), additional conditions for payment are:

(1) The applicant is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance available for this purpose;

and

(2) The applicant does not have sufficient funds available from all sources to provide minimum school facilities required for the free public education of a substantial percentage of children in membership in its schools. This requirement will be deemed to be met when, with full utilization of practicably available financial resources including unused legal

bonding authority of the applicant (but not to exceed 12 percent of the assessed valuation of the school district), the applicant does not have sufficient funds to provide minimum school facilities required for the education of 95 percent or more of the total number of children estimated to be in membership in the applicant's schools as of the end of the second year following the end of the membership period for which the application is filed.

The preceding burden and effort requirement is not applicable to subsection 14(b).

Federal funds granted under subsection 14(a) are limited to the amount in excess of local, State, and other Federal funds available that is required to construct minimum school facilities for the children who, it is estimated, will be in membership in the applicant's schools at the end of the second year following the end of any 4-year membership period.

Under subsection 14(b) the amount of Federal funds is limited to that in excess of local, State, and other Federal funds available that is needed to provide minimum school facilities for only those children who reside on Indian lands.

GRANTS TO PROVIDE NEEDED MINIMUM SCHOOL FACILITIES FOR CHILDREN IN SCHOOL DISTRICTS FINANCIALLY DISTRESSED DUE TO LARGE AREAS OF FEDERAL LANDS IN THE DISTRICT (Subsection 14(c))

Subsection 14(c) was added to Public Law 81-815 by an amendment contained in Public Law 91-230, approved April 13, 1970. Subsection 14(c) authorizes grants for the construction of minimum school facilities to districts providing free public education for a substantial percentage of children who are inadequately housed by minimum school facilities, where Federal property constitutes a substantial part of the school district, and when such children have not formed or will not form the basis for payments under other provisions of the act. Furthermore, the immunity of Federal property from taxation must have created a substantial and continuing impairment of the district's ability to finance needed school facilities.

Eligibility Requirements

An applicant school district may be eligible under subsection 14(c) if:

(1) The number of children for whom the local education agency is providing or will provide free public education and who are inadequately housed by minimum school facilities represents a "substantial percentage" of the total number of children for whom the local education agency provides free public education. A further provision is that the membership of these children has not formed and will not form the basis for payment under other provisions of the act. An applicant will be considered to meet the "substantial percentage" requirement when the number of children inadequately housed is at least 20 and when that number constitutes at least 33 1/3 percent of the total number of children for whom the applicant is providing free public education;

and

(2) Federal property in the school district is at least 33 1/3 percent of the total area in the school district;

and

(3) The immunity of such Federal property to taxation by the applicant has created a substantial or continuing impairment on the school district's ability to finance needed school facilities.

(4) The applicant is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance available for this purpose.

(5) The applicant does not have sufficient funds from all other sources to provide the minimum school facilities required for free public education of a substantial percentage of the children in membership in its schools. This requirement will be deemed to be met when, with full utilization of practicably available financial resources including unused legal bonding authority of the applicant (but not necessarily exceeding 12 percent of the assessed valuation of the school district), the applicant does not have sufficient funds to provide the minimum school facilities required for the education of 95 percent or more of the total number of children estimated to be in membership as of the end of the second year following the end of the membership period for which the application is filed.

Amount of Federal Payment

Federal funds granted under subsection 14(c) are limited to the amount required, in excess of local, State, and other Federal funds available, for constructing minimum school facilities for inadequately housed children who it is estimated will be in membership in the applicant's schools at the end of the second year following the end of any 4-year increase period.

FEDERAL CONSTRUCTION OF SCHOOL FACILITIES ON FEDERAL PROPERTY (Section 10)

Some State laws preclude the expenditure of local and State funds for the construction of school facilities on Federal properties. In these instances, the Commissioner is directed by section 10 of the act to make arrangements for constructing or otherwise providing school facilities for the children. To the extent practicable, these facilities are to be comparable to those provided by local education agencies in similar communities in the State.

Public Law 89-77 authorized the Commissioner, in determining the capacity of school facilities to be constructed on Federal installations in Guam, Puerto Rico, and Wake Island to count children residing off Federal property but whose parent is employed by the United States. He may count such children when he determines, after consultation with the appropriate State education agency, that the provision of such facilities is appropriate to carry out the

purposes of Public Law 81-815, that no local education agency is able to provide suitable free public education for such children, and that English is not the primary language of instruction in the locality.

The Commissioner is authorized to transfer to the appropriate local education agency, without charge, all the right, title, and interest of the United States in and to any facilities provided under section 10 or (as formerly enacted) section 204 or 310, when he determines it is in the interest of the Federal Government to do so.

ADMINISTRATION

Responsibility for administering the school construction program has been delegated to the Division of School Assistance in Federally Affected Areas, U.S. Office of Education. Amended Regulations were published in the Federal Register on April 8, 1975. Regulations are codified in Title 45 Code of Federal Regulations, part 114.

Participation by State Education Agencies

State education agencies participate in administering the school construction program. An application from a local education agency may not be approved until the State education agency assures the Commissioner that the project is consistent with overall State plans for the construction of school facilities.

The participation of each State is essential in establishing construction costs used in computing grants for eligible school districts. On the basis of information obtained annually from each State, an average per-pupil cost of construction is computed and submitted to the State agency for concurrence. The approved 1974 average per-pupil costs of construction when obtained for each State are used in determining grants under applications filed for the increase period ended June 30, 1976.

Construction functions are delegated to the Office of Facilities Engineering and Property Management of the Department of Health, Education, and Welfare. These functions include obtaining assurances required by the act, examining final plans and specifications, and inspecting and reviewing construction progress. That Office also performs additional functions in constructing temporary school facilities under section 9 and in constructing schools on Federal property under section 10, including the preparation of cost estimates, arranging for the preparation of plans and specifications, and supervision of the construction of each approved project.

Priority and Relative Urgency of Need

When funds available for any fiscal year will not be sufficient to pay in full the maximum allowance to all eligible school districts which have filed applications before the most recent cutoff date for their receipt, the act requires that the Commissioner shall establish a priority listing for the approval of those applications, based on relative urgency of need. Projects are arranged in order from the highest to the lowest index number. Funds are

reserved, starting with the highest priority project and continuing down the list as far as available funds will permit. Applications filed after the currently effective cutoff date are considered for approval when additional funds are made available and a new cutoff date has been established.

The priority index of each eligible school district application is the sum of (1) the percentage that the number of federally connected children counted for payment is of the total membership at the close of the 4-year increase period and (2) the percentage that the number of children determined to be "unhoused" in the applicant's schools as of the end of the increase period is of the total membership. However, the priority index may not exceed twice the percentage of the total membership that the number of federally connected children counted for payment represents.

Pursuant to the current provisions of the act, eligible applications under sections 9, 10, and 16 and those under subsections 14(a) and 14(b) must be funded before applications under all other sections when the appropriation is insufficient to fund all eligible applications. However, beginning with fiscal year 1973, appropriations act language has provided that all funds authorized for the purposes of the act be expended in effect exclusively for applications eligible under section 5 and those eligible under subsections 14(a) and 14(b).

Public Law 91-230, approved April 13, 1970, amended the act to establish the present priority position of subsections 14(a) and (b) with respect to funding. As a consequence of this amendment and the limited funds available, priority indexes are now developed for section 10 applications on a basis similar to that described in the preceding paragraph.

The act further provides that applications or portions of applications under section 5 based on the membership of children residing on, or residing with a parent employed on low-rent housing property, may not be funded until all other applications under that section of the act have been approved.

"Minimum School Facilities"

The concept of "minimum school facilities" was incorporated into Public Law 81-815 in 1953 by the enactment of Public Law 83-246. The amending law did not define the term. However, the congressional committee reports on the bill gave considerable legislative history regarding the intent of Congress in this matter. In general, minimum school facilities were to be neither inferior nor substandard in the quality of materials used in their construction and in the amount of space provided for instructional purposes. However, it was not expected that Federal funds would be used to construct single-purpose auditoriums, single-purpose gymnasiums, or other single-use rooms that would be used only a part of each day or to provide facilities more elaborate than those which school districts in the same State in recent years had been constructing with their own funds. Minimum school facilities were defined by Federal regulations as "those instructional and auxiliary rooms and initial equipment, exclusive of single-purpose auditoriums, single-purpose gymnasiums, and any built-in spectator space, necessary to operate a program of free

public education for the school members of the applicant at normal capacity in accordance with the laws and customs of the State." Federal funds have been approved to construct school facilities of the size and type which school districts have been providing in recent years with their own funds, but which generally excluded single-purpose gymnasiums and auditoriums.

As a result of changing educational needs, purposes, and technology, and because of innovations occurring in elementary and secondary education, it is becoming common practice, particularly in larger school centers, to provide separate gymnasiums and separate auditoriums. During fiscal year 1967, the definition of minimum school facilities in the Federal regulations was amended to permit the construction of such separate facilities with Public Law 81-815 funds where the size of pupil enrollment and curriculum requirements justify separate facilities. Further change has resulted from the amendments enacted by Public Law 89-750 requiring applicants to consider excellence of architecture and design of any building constructed with the use of Federal funds. An amount not to exceed 1 percent of the project grant may be authorized for incorporation of works of art in building plans. In addition, all facilities constructed with the use of Federal funds must be made accessible to and usable by handicapped persons.

When Public Law 90-247 was under consideration, the congressional committees included in the reports on the bill a statement giving the legislative history of the "minimum school facilities" concept and recommending the establishment of a more up-to-date idea of minimum school facilities than was included when the law was enacted in 1950 and amended in 1953. The report expressed the view that while the concept had served a useful purpose in the law and should be retained to prevent unnecessary or unwise expenditure of Federal funds, it needed to be modernized to fit the current trends in educational programs, techniques, and purposes and that with new devices for instruction becoming more widely used, minimum school facilities should include, in addition to regular classrooms, special rooms for speech therapy, remedial reading, music appreciation, language laboratories, electronic data processing, and other facilities and the equipment necessary for and useful in conducting special programs or activities for educationally deprived children. The report further suggested that the criterion to be used in approving features in buildings or other specialized facilities should be the need of them in the school program operated by the applicant school district and that it is within the concept of minimum facilities to use Federal funds in appropriate situations, particularly under subsections 14(a) and (b), for construction of consolidated school facilities when small districts are merged or to replace small isolated, inadequate buildings with modern facilities even though the district may have enough classroom space to house all of the children. Also, considerable leeway may be exercised in determining what constitutes minimum school facilities in specific situations, following consultation with the State education agency.

"Unhoused Children"

Children who are "unhoused" or "without minimum school facilities" are defined by regulation as those in membership in the schools of a district

over and above the normal capacity of available and usable minimum school facilities. As indicated earlier, the law requires that the amount of Federal funds approved for payment be limited to the cost of constructing minimum school facilities for a number not to exceed the number of "unhoused" children. The act, as amended by Public Law 89-750, now authorizes the number of unhoused children for whom minimum school facilities are needed to be determined by estimating total membership as of the end of the second year following the 4-year period for which the application is filed.

A school district may have sufficient classroom space to accommodate the children in membership in its schools, but not have the minimum school facilities needed to conduct an adequate school program. In such cases, Federal funds under the act may be approved as indicated above for the construction of the needed minimum facilities, such as a library, administrative space, kitchen and cafeteria, or other non-capacity facilities.

APPROPRIATIONS

A total of \$1,534,592,000 has been appropriated by the Congress for constructing school facilities under Public Law 81-815 since its enactment in September 1950. This does not include a balance of \$96,000 transferred to the Office of Education from the Atomic Energy Commission pursuant to section 209(d) of the act, nor \$2,471,106 transferred from the U.S. Army SAFEGUARD Program pursuant to Public Law 91-211.

SUMMARY OF ASSISTANCE PROVIDED UNDER PUBLIC LAW 81-815

General

Beginning in fiscal year 1967, appropriations requested and provided for Public Law 81-815 were insufficient to meet the needs of all eligible applications filed for school construction assistance to overcome the school membership impact resulting from increased or new Federal activities and to provide for major disaster assistance. Several factors may be cited as having caused the current backlog of eligible or potentially eligible unfunded applications. Appropriations requested were predicated upon the termination of temporary provisions of the act, subsections 5(a)(2) and 5(a)(3). However, authorizations have extended those provisions to September 30, 1978. The provisions of the act were liberalized to permit more effective construction assistance to all local education agencies and specifically to those serving children residing on Indian lands. Major disaster assistance needs continually increased, and legislative and administrative measures were introduced to reduce obligations and expenditures.

Consequently, no eligible application by a local education agency filed under section 5 after fiscal year 1967 to the present was funded until fiscal year 1973.

In accordance with the provisions of the act, funds appropriated in fiscal year 1968 through 1970 were obligated or committed to the extent possible for eligible applications required by the act to be given first consideration--assistance under section 9, where Federal impact is of a temporary duration;

under section 10, direct Federal construction on Federal property; and under section 16, major disaster assistance. All eligible claims under the latter section were funded before consideration was given to applications under section 9 and 10.

Beginning in fiscal year 1971, after the potential requirements of section 16 were considered, eligible applications under the priority sections 9 and 10 and subsections 14(a) and (b), shared appropriated funds in proportion to the total requirements of each section. Applications were ranked in priority index order, regardless of the year in which filed, and they were funded in accordance with that order.

Beginning in fiscal year 1973, appropriations act language superseded the basic language of the law and provided that all funds authorized for its purposes be used in effect exclusively for the funding of applications eligible under section 5 and those eligible under subsections 14(a) and 14(b) which reflected the impact in school membership caused by activities on military installations and children residing on Indian lands.

The backlog of potentially eligible unfunded applications under all sections of the act is now estimated to exceed \$500 million. Final processing of applications on file and receipt of construction bids for those applications under priority sections which presumably can be funded will alter this estimate. About a third of the total estimated entitlement is attributable to applications under the priority sections 9 and 10, subsections 14(a) and 14(b), and section 16 of the act.

Fiscal Year 1977

Construction of School Facilities by Local Education Agencies

A total of 22 local education agencies filed applications during fiscal year 1977 for assistance under sections 5, 8, 9, and 14 of the act. Of the applications filed during fiscal year 1977, 10 were for assistance under section 14.

The sum of \$7,066,503 was obligated in fiscal year 1977 for five section 14 projects, and \$7,160,802 was obligated for seven section 5 projects. It is estimated that approved facilities will provide 100 classrooms and related facilities for 2,024 pupils in school districts providing free public education for children residing on Indian lands and 51 classrooms and related facilities for pupils whose parents either reside on and/or are employed on military installations.

Construction of School Facilities by the Federal Government on Federal Property

No new applications for the construction of school facilities on Federal property were submitted by Federal agencies under section 10 of the act in fiscal year 1977. A total of \$7,659,125 in Federal funds was initially committed during the fiscal year for emergency repairs to 10 existing school facility projects. No new projects were started in fiscal year 1977.

A 1965 amendment to section 10 of the act authorized, under certain circumstances, the construction on Federal property of school facilities to accommodate children whose parents are employed by the United States, but who live off of the Federal property. That amendment is applicable only to the construction of school facilities on Federal property located on Guam, in Puerto Rico, and on Wake Island.

Transfer to Local Education Agencies of School Facilities Constructed on Federal Property under Section 10 (former Sections 204 and 310)

There were no new requests in fiscal year 1977 from local education agencies for the transfer of title to federally owned school facilities which had been constructed under section 10 of the act, or under former section 204 or 310. A total of 43 requests for transfer of title has been received since the legislation authorizing that action was enacted in 1966. The number of school facility projects transferred to date is 30. Other pending transfers are dependent upon the division's being able to repair, rehabilitate, or provide additional minimum school facilities. These projects have been deferred because of lack of funds during recent years.

Special Assistance to SAFEGUARD ABM Federally Impacted Areas

The Office of Education and the Department of the Army in Fiscal Year 1971 entered into an agreement pursuant to Public Law 91-511 to provide school construction assistance in areas federally impacted due to the construction of the SAFEGUARD antiballistic missile system. In accordance with this agreement and Public Law 91-511, the Office of Education received applications under Public Law 81-815 from these federally impacted local education agencies, processed the applications, obligated funds to the extent available under Public Law 81-815, and forwarded eligible applications to the Department of the Army for consideration under the provisions of Public Law 91-511, section 610. In fiscal year 1972 applications from four local education agencies were determined eligible for school construction assistance under Public Law 81-815 and Public Law 91-511.

Fiscal Years 1951 Through 1977

During the 27-year period of operation covered by this report (see table E) 12,393 project applications have been filed by local education agencies in 50 States and 4 outlying areas and by federal officials on behalf of various Federal installations. Federal funds totaling \$1,504,723,358 have been reserved for 6,501 projects, representing 11,706 projects filed by local education agencies and 687 by Federal agencies. Of this amount \$1,287,525,870 have been granted to local school districts, and \$217,197,488 have been authorized by the Commissioner to build school facilities on Federal property.

The school facilities constructed or approved for construction by local education agencies under sections 5, 8, 9, and 14 of the act are estimated to provide over 77,704 classrooms and related facilities to house approximately 2,308,872 pupils. It is estimated that the local education agencies have added \$1.09 billion in local and State funds for the acquisition of sites and the construction of the projects provided under Public Law 81-815.

Funds have been authorized for 490 projects for Federal construction of school facilities on Federal property. These projects will provide an estimated 4,527 classrooms and related facilities to house approximately 136,360 pupils.

TABLE E.—Public Law 81-815: Total number of projects filed, number for which funds were reserved, fund reservations, classrooms provided, and pupils housed, by sections of the act: fiscal years 1951-77

1951	69	45	20,597,371	576	17,298

^a Includes 28 projects for which funds were reserved under sections 5 and 14 to provide 226 classrooms to house 6,042 children.

^b Includes projects under Public Law 83-357 based on unpaid entitlements for the attendance of federally connected children prior to July 1, 1952.

^c Funds were sufficient in FY 1976 to provide additional money for five ongoing section 14 projects.

^d Construction by Federal agencies.

^e Funds reserved only for emergency repairs to previous projects.

IV. FEDERAL DISASTER AID FOR SCHOOLS

AUTHORIZING LEGISLATION

Public Law 89-313, approved by the President on November 1, 1965, amended Public Laws 81-815 and 81-874 to authorize the Commissioner of Education to provide financial assistance under certain conditions for the repair, restoration, or replacement of damaged facilities and for the operation of public elementary and secondary schools in areas affected by a major disaster. This act amended Public Law 81-815 by adding section 16 and Public Law 81-874 by adding section 7. Thus, certain definitions, limitations, and requirements in Public Laws 81-815 and 81-874 apply to the major disaster assistance program.

Public Law 89-313 authorizes the Commissioner of Education to replace or restore a school building destroyed or damaged in a disaster and, when necessary, to provide increased current operating expenses for a period not to exceed 3 years, with the entitlement for the second, third, and fourth years following the year of the disaster to be on a reduced basis. The Commissioner is further authorized to provide public school facilities and operating funds for children who attended nonpublic schools which were damaged or destroyed by a disaster and will not be repaired or restored.

When the President declares a "major disaster" for any area as defined in sections 102(2) and 301 of Public Law 93-288, the Federal Disaster Assistance Administration defines the geographic limits of the disaster area and notifies the Commissioner. School districts located within that area are then authorized to apply for major disaster assistance.

Public Law 90-247, approved January 2, 1968, extended school disaster aid provisions to disasters occurring on or before June 30, 1970, and amended both Public Laws 81-815 and 81-874 to authorize major disaster assistance to publicly operated schools providing technical, vocational, or other special education to children of elementary or secondary school age. That act also eliminated the requirement for a determination of reasonable tax effort and the exercise of due diligence by the local education agency or other public agency in availing itself of State and other financial assistance and substituted a requirement that such agency utilize all State and other financial assistance available for the same purpose. It also added a minimum need provision (\$1,000 or one-half of 1 percent of the agency's current operating expenditures during the year preceding the disaster, whichever is the lesser) as a condition of eligibility for assistance.

Subsection 7(a), title I, Public Law 81-874, was amended to authorize assistance that would provide a level of education equivalent to that maintained in the schools of the agency prior to the occurrence of the disaster instead of the level maintained during the last full fiscal year prior to the occurrence of the disaster, and an amendment was added to subsection 7(b) to clarify the authority to use grant funds to make minor repairs to facilities where necessary as the result of a major disaster.

Section 16 of Public Law 81-815 was amended to permit financial assistance to a local education agency or other public agency for the construction of public school facilities to serve children who would attend public schools because the private schools they were attending had been destroyed or seriously damaged by a major disaster and would not be replaced.

Public Law 90-247 further amended both Public Laws 81-815 and 81-874 to authorize Federal assistance in the case of "pinpoint" disasters; that is, disasters which are localized and not of sufficient severity to be classed as major disasters. Assistance is authorized where the Commissioner determines that public elementary and secondary school facilities of a local education agency have been destroyed or seriously damaged as a result of a flood, hurricane, earthquake, storm, fire, or other catastrophe except one caused by negligence or malicious action, provided that the Governor of the State certifies the need for disaster assistance and gives assurances of the expenditure of a reasonable amount of State or local funds for the same purpose. The assistance authorized under section 16 of Public Law 81-815 in the case of a "pinpoint" disaster must be made in the form of a repayable advance. Final regulations for the "pinpoint" disaster assistance provisions were published on November 17, 1976.

Public Law 91-230 approved April 13, 1970, extended the disaster provisions of Public Laws 81-874 and 81-815 to June 30, 1973. Under the authority of 20 U.S.C. 1224 assistance was extended through June 30, 1974.

Public Law 93-380 approved August 21, 1974, extended the disaster provisions of Public Laws 81-815 and 81-874 to July 1, 1978 which has been further extended to September 30 by the Fiscal Year Adjustment Act, Public Law 94-293. Public Law 93-380 also amended section 16 of Public Law 81-815 to authorize as a part of the cost of construction, expenditure of funds to assure that the facilities, as restored or replaced, will afford appropriate protection against personal injuries resulting from a disaster.

Determination by the Commissioner Required by Public Law 81-815 and 81-874

Before a local education agency or other public agency which operates schools providing technical, vocational, or other special education to children of elementary or secondary school age may become eligible for major disaster assistance, the Commissioner of Education must determine that:

1. Under Public Law 81-815, public elementary or secondary school facilities of such agency have been destroyed or seriously damaged as a result of a catastrophe or that private elementary or secondary school facilities have been destroyed or seriously damaged and will not be replaced or restored.
2. The Governor of the State has certified the need for Federal disaster assistance and has given assurance of a reasonable expenditure of State or local funds for such purpose.
3. Such agency is using or will utilize all State and other financial

assistance available for the same purpose.

4. The agency does not have sufficient funds available to it from State, local, or other Federal sources or insurance benefits to provide for the repair, replacement, or restoration of the facilities destroyed or seriously damaged or to meet the cost of providing free public education for the children attending the schools of the agency. The amount of additional assistance needed must equal at least \$1,000 or one-half of 1 percent of the school district's current operating expenditures during the fiscal year preceding the fiscal year of the disaster, whichever is the lesser.
5. The agency has made provisions to accept in its schools children enrolled in private elementary or secondary schools where operation was disrupted or impaired by the disaster if such children are to be considered in the basis for payment.

ASSISTANCE THAT MAY BE PROVIDED

The Commissioner may authorize upon such terms and in such amounts as he determines to be in the public interest the additional assistance necessary for a school district to provide free public education and needed facilities.

Section 7, Title I, Public Law 81-874

Financial assistance may be given to a local education agency or to a public agency which operates a school providing technical, vocational, or other special education to children of elementary and secondary age to help finance the current operation of its elementary and secondary school program; to make minor repairs to damaged facilities; to replace or repair instructional and maintenance supplies, equipment, and materials (including books) that were seriously damaged or destroyed; to lease or otherwise obtain temporary school facilities while those destroyed or seriously damaged are being replaced or restored; and to assist in meeting the added operating costs of a local education agency which accepts children attending a private school where operation was disrupted or impaired by a disaster.

The assistance necessary to meet current operating expenses for free public education for any fiscal year is limited to what the Commissioner determines is necessary to enable such agency with State, local and other Federal funds available to it for such purpose to provide a level of education equivalent to that maintained in the schools of the agency prior to the occurrence of the disaster. Consideration may be given to the additional costs of providing a public educational program for children enrolled in non-public elementary and secondary schools whose operation has been disrupted by the disaster.

Additional assistance may be provided for a period not exceeding 5 fiscal years beginning with the fiscal year in which the President determines that the area has suffered a major disaster. Entitlements for the second, third, and fourth fiscal years following the President's determination may not exceed 75 percent, 50 percent, and 25 percent, respectively, of the

amount of entitlement for the educational program for the second fiscal year of such five-year period.

Section 16, Public Law 81-815

Financial assistance may be provided under section 16 for replacing or restoring school facilities destroyed or seriously damaged as a result of a major disaster and for construction of additional public school facilities to house children from private schools seriously damaged or destroyed and which are not to be replaced.

Assistance provided under the act may not exceed the construction costs incident to the restoration or replacement of school facilities destroyed or damaged. When the Commissioner determines that the district has funds available from other sources to restore or replace the damaged facility and these funds are not immediately available, he may advance Federal money to the district for immediate use, such advance to be repaid upon such terms and conditions as he may determine.

ADMINISTRATION

Responsibility for administering the program of Disaster Assistance for Schools has been delegated to the Division of School Assistance in Federally Affected Areas, U.S. Office of Education. Regulations were first published in the Federal Register on March 15, 1966. Amendments to the regulations were published on September 6, 1968, January 29, 1971, and April 8, 1975. Regulations are codified in Title 45 Code of Federal Regulations, parts 112 and 113.

Other Agencies

State education agencies participate in the administration of the program of Disaster Assistance for Schools. Applications are submitted to the Commissioner through the State education agency. The State representative reviews the application and certifies its accuracy and completeness. For applications under section 16 of Public Law 81-815, the State agency certifies that the proposed construction project is consistent with overall State plans for the construction of school facilities.

Available Funds

Under subsection 7(b) of title I of Public Law 81-874, Federal funds are available for debris removal and cleanup; minor repairs to buildings and sites; repair or replacement of equipment, materials, and supplies; and for leasing of temporary facilities. Funds from other Federal, State, and local sources including insurance proceeds available for major disaster repair must be considered as available. Applicant is entitled only to the additional amount needed to make the necessary repairs or replacements.

Under subsection 7(a) all Federal, State, and local funds practicably available to a public education agency for providing the free public education program are considered available.

In determining the funds an applicant has available under section 16 of Public Law 81-815 for repairing, replacing, or restoring school facilities (exclusive of equipment) seriously damaged or totally destroyed by a disaster, the Commissioner considers as available all insurance proceeds and all Federal, State, or local funds made available to the applicant specifically for repair or replacement of disaster damage, as well as all unobligated or unencumbered funds set aside as an insurance reserve and funds from the sale of bonds voted specifically for the replacement of the school facilities seriously damaged or destroyed as a result of the major disaster.

Priorities for Approval of Applications

Whenever the Commissioner determines that appropriated funds available for any fiscal year will be inadequate to provide the financial assistance requested under all approvable applications, he will, as provided by subsections 16(c) of Public Law 81-815 and 7(d) of Public Law 81-874, establish an order of priority for approval of applications after considering the relative educational and financial needs of all public education agencies which have submitted approvable applications.

Section 7, Title I, Public Law 81-874

The priority index established for an approvable application is the ratio (expressed in percentage) of Federal funds for which the Commissioner estimates the application is eligible to the total estimated current operating costs of the applicant including the increased costs due to the major disaster.

Section 16, Public Law 81-815

An order of priority is determined by the Commissioner for all applications for replacement or restoration of school facilities where the relocation of students in another school building or classroom is required because of destruction of or serious damage to such facilities. The priority index of each application is determined on the basis of the ratio (expressed in percentage) of the number of children in the school district who are so relocated to the total membership of all schools in the district.

Assurances Required Under Section 16, Public Law 81-815

Subsection 16(c) provides that before payment can be made, an application must meet the requirements of subsection 6(b)(1) of the act. In addition, applicants are required to give the same assurances as applicants under other provisions of Public Law 81-815 concerning compliance with title VI of the Civil Rights Act of 1964, consideration of excellence of architecture and design, and accessibility and use of the facilities by handicapped persons.

APPROPRIATIONS

Section 16 of Public Law 81-815 and section 7, title I, Public Law 81-874 both authorize the appropriation of funds for each fiscal year in the

amounts necessary to carry out the provisions of these sections. While these appropriations are pending, the Commissioner is authorized, under Public Law 81-815, to use such funds appropriated under any other sections of the act as may be necessary for immediately providing disaster assistance under section 16. Under Public Law 81-874, any funds appropriated to the Office of Education and at that time available to the Commissioner may be used for disaster assistance under section 7.

During fiscal year 1966, the first year of the program, funds appropriated for title I of Public Law 81-874 and not needed for that year were obligated for all disaster payments under both acts. Subsequently separate accounts of obligations and expenditures for disaster assistance are maintained on a current basis. However, no funds have ever been appropriated directly for the purpose of financing applications eligible under section 16 of Public Law 81-815.

SUMMARY OF DISASTER ASSISTANCE-FISCAL YEARS 1966-77

Between August 30, 1965 (the effective date of major disaster assistance legislation), and January 2, 1968 (the effective date of pinpoint disaster assistance legislation), and September 30, 1977, 379 major and pinpoint disasters were declared involving 44 States and 4 territories. School districts in 44 of these States and 4 territories have submitted 2,831 applications under section 7 of Public Law 81-874 and 50 project applications under section 16 of Public Law 81-815. To date a total of \$146,998,787.47 has been authorized in payments for applications submitted to the Office of Education under section 7 and \$36,388,078 has been reserved under section 16.

During fiscal year 1977, 17 major and 56 pinpoint disasters were declared, involving 18 States and no territories. A total of 540 applications for assistance under section 7 of Public Law 81-874 and 5 applications for school construction assistance under section 16 of Public Law 81-815 were received in fiscal year 1977. A total of \$20,207,167.13 was authorized for payments to school districts during 1977 under section 7 of Public Law 81-874, and \$1,400,000 was reserved for applications under section 16 of Public Law 81-815.

DESCRIPTION OF BASIC TABLES

Data on which this report is based are presented as of September 30, 1977, and are primarily for fiscal year 1977 for Public Law 81-874 and cumulative (1951 through 1977) for Public Law 81-815.¹ In addition, payments for Public Law 81-874 applicants for fiscal year 1976, adjusted to reflect current figures as of September 30, 1977, are shown.

In these basic tables references are made to specific sections and subsections of each of the acts. The provisions of each law and its principal sections are covered briefly in the text of the report.

P.L. 81-874 Tables.--Show applications submitted, appropriations, net entitlements, payments, and total current expenditures of eligible applicants; number of children eligible for payment; deductions from gross entitlements; value of transportation, custodial and other maintenance services provided by other Federal agencies; and provision of free public education for certain children residing on Federal property.

P.L. 81-815 Tables.--Show appropriations; estimated per-pupil costs of constructing minimum school facilities; applications and projects submitted and processed; increases in school membership eligible for payment; projects approved (those for which Federal funds were reserved, those under construction, and those completed); reservations of funds; number of classrooms provided and to be provided; and number of pupils housed and to be housed.

The last table shows Federal funds reserved or obligated for disaster assistance for local educational agencies by State for fiscal years 1966-77 and 1977.

Special Notes

- (1) "Aggregate United States" as used in the tables means the 50 States, the District of Columbia, and those outlying areas included under the provisions of each act.
- (2) In tables 1 and 8 the congressional district is listed immediately after the name of the county if the county in which the school district is located is included in only one congressional district. Otherwise, the congressional district is listed in parentheses immediately after the name of the school district.
- (3) "Public Law 81-874" as used in these tables does not include data for Title II: Financial Assistance to Local Education Agencies for the Education of Low-Income Families. That program is administered elsewhere in the Office of Education.

^{1/} For comparative data for fiscal years 1951 through 1976, see the 26 preceding annual reports of the Commissioner on the administration of these acts. These reports are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Public Law 88-605	Sept. 19, 1964	58,400,000
Public Law 89-156	Aug. 31, 1965	50,073,000
Public Law 89-787	Nov. 7, 1966	⁶ 22,937,000
Public Law 90-21	May 29, 1967	⁶ 30,000,000
Public Law 90-132	Nov. 8, 1967	⁶ 22,937,000
Public Law 90-557	Oct. 11, 1968	14,745,000
Public Law 91-204	Mar. 5, 1970	15,200,000
Public Law 91-380	Aug. 18, 1970	15,000,000
Public Law 92-48	July 9, 1971	20,040,000
Public Law 92-334	July 1, 1972	
Public Law 92-390	Aug. 18, 1972	
Public Law 92-446	Sept. 29, 1972	25,910,000
Public Law 92-571	Oct. 26, 1972	
Public Law 93-9	Mar. 8, 1973	
Public Law 93-192	Dec. 18, 1973	19,000,000
Public Law 93-554	Dec. 27, 1974	20,000,000
Public Law 94-94	Sept. 10, 1975	20,000,000
Public Law 94-439	Sept. 30, 1976	25,000,000

¹ For payment of unpaid entitlements original Public Law 815.

² Authorized transfer of balances from title II and removed limitation in Public Law 731 on use of funds appropriated for Public Law 815.

³ Includes approximately \$6,625,000 to cover amendments to Public Law 246, as authorized by Public Law 382.

⁴ Technical services (HUD).

⁵ Includes 1961 supplemental appropriation of \$7,092,000.

⁶ In accordance with Public Law 90-218, only \$24,100,000 of the amounts appropriated by Public Law 89-787, Public Law 90-21, and Public Law 90-132 was made available for obligation in fiscal year 1968.
